Jose Hernández

Computer Systems Engineer | **IT Support Technician**
+506 8425-8954 | joseadrianhernandez07@gmail.com | LinkedIn | GitHub | Portfolio
San José, Costa Rica

I'm a persistent Computer Systems Engineer looking for an IT support or entry-level role. I fix computers, set up POS systems for small businesses and build web apps with React. Before that, I handled 60–90 fraud cases a day for Capital One in English. I communicate clearly and document my fixes.

EDUCATION

Universidad Tecnológica Costarricense, San José, Costa Rica **Jan 2023 – Jul 2026**
Bachelor's Degree in Computer Systems Engineering

Generation Colombia (Remote): IT Support Bootcamp, in progress **Oct 2026 – Dec 2026**

CTP Roberto Gamboa Valverde: Network Technician Program, 2 years **2020 – 2022**

WORK EXPERIENCE

Reparaciones HM (Self-Employed), San José, Costa Rica **Jul 2026 – Present**
IT Support Technician

- Diagnose, repair and upgrade desktops, mini PCs and laptops, 4–10 devices a month.
- Install operating systems, drivers and software; set up Eleventa POS and Epson thermal printers.
- Handle each job on my own, in person or remotely through AnyDesk.

Limes Dev (Startup), San José, Costa Rica **Dec 2025 – Present**
Co-Founder & Full-Stack Developer

- Building Finity, a SaaS accounting platform, with two classmates (React, Node.js, PostgreSQL).
- Built JWT login with 2FA, sales and cash modules and PDF reports; deployed on Cloudflare.

Capital One (via Foundever), Remote **Jan 2024 – Mar 2025**
Fraud & Credit Specialist

- Handled 60–90 fraud calls and chats a day, 100% in English, with a 3–4 minute handle time.
- Recognized as a top performer while working full time and finishing my degree.

PROJECTS

- **Registro Docente 360** (C#, SQL Server): attendance and grades app over a ZeroTier VPN.
- **Art Gallery Database** (PL/SQL): Scrum Master and developer: procedures, triggers, views.
- **Gmo Training** (React Native, Supabase): offline-first gym app built with Claude Code.

SKILLS

- **IT support:** troubleshooting, hardware repair, OS installation, POS setup, remote support
- **Systems:** Windows, macOS, Windows Server, Active Directory, Microsoft 365, Linux
- **Networking:** TCP/IP, DNS, DHCP, VPN; simulated labs in Cisco Packet Tracer and VirtualBox
- **Development:** JavaScript, TypeScript, React, Node.js, Python, C#, SQL, PostgreSQL, Oracle
- **Tools:** Git/GitHub, Docker, Cloudflare, Azure DevOps, Scrum
- **Certifications:** Fortinet NSE 1–3; Endpoint Security, Cisco NetAcad (in progress)
